

ESCUTCHEON TOOL FOR RECESSED AUTOMATIC SPRINKLERS

DESCRIPTION AND OPERATION

Globe's escutcheon installation tool for recessed style sprinklers is designed for the installation of Globe's Friction Type Recessed Escutcheon.

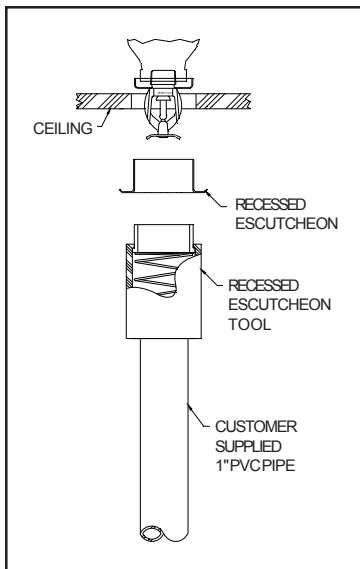

By varying the length of the PVC pipe used, the escutcheon may be installed from the floor without the use of scaffolding, ladder, etc., for most ceiling heights.

The Globe Escutcheon Installation Tool incorporates an internal spring to compensate for the amount of the sprinkler exposed below the ceiling.

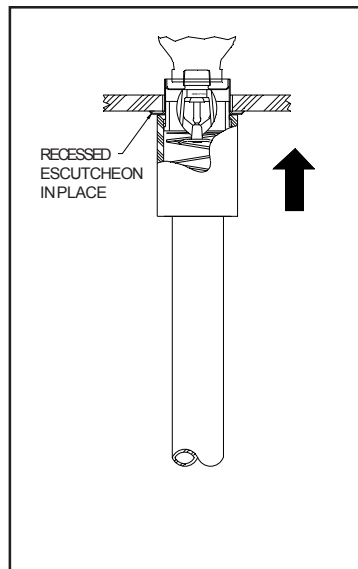

TECHNICAL DATA

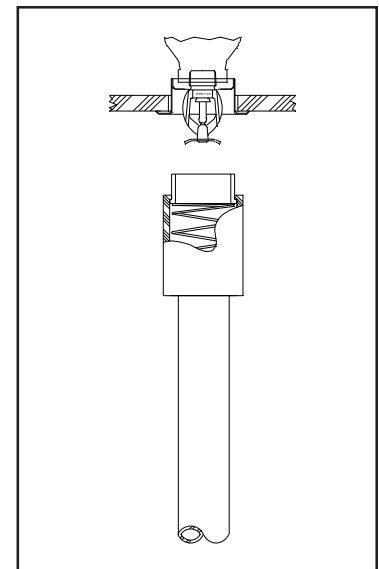

- PVC Plastic with stainless steel spring

Place escutcheon on escutcheon installation tool.

Install escutcheon.

Installed position of escutcheon.
